Siam Botanicals is the first Thai Natural & Organic Skin Care brand to have products certified under the COSMOS Natural and COSMOS Organic standard. This new integrated European standard has been developed by the European certifying agencies, BDIH, ECOCERT, SOIL ASSOCIATION and COSMEBIO.

In today's cosmetics market terms such as 'natural' and 'organic' are used too freely with little or no substance behind them, a recognized 'stamp of approval' such as the COSMOS-standard certification gives customers confidence that a company really produces Natural and Organic products and that the ingredients it uses can be trusted.
